

# Uric Acid or Gout Poison In the Causation of Disease.

## DR. ALEXANDER HAIG, London.

# BUFFALO LITHIA WATER

### Dissolves and Eliminates Stone of the Kidney or Bladder, Uric Acid, Phosphatic and Oxalic. But its action is Primarily and Mainly Exerted upon Uric Acid and the Urates.

Modus Operandi of the Water in Such Cases Explained

## DR. J. W. MALLETT

Professor of Chemistry, University of Virginia.

The following photographs illustrate four collections of Stone of the Kidney and Bladder, embracing the Uric Acid, Phosphatic and Oxalic varieties, passed by patients under the use of the BUFFALO LITHIA WATER reported on by Dr. Mallett:

Collection No. 1. Consisted of 75-93 per cent of Uric Acid, and 17.55 per cent of Ammonium Urates, besides monium-Magnesian Phosphate.

Collection No. 2. Consisted of 71.34 per cent of Uric Acid, and 28.66 per cent of Calcium Oxalate, besides monium-Magnesian Phosphate.

Collection No. 3. Consisted of 64.63 per cent of Uric Acid, and 35.37 per cent of Calcium Phosphate, with only 0.75 per cent of Uric Acid.

Collection No. 4. Consisted of 64.63 per cent of Uric Acid, and 35.37 per cent of Calcium Phosphate, with only 0.75 per cent of Uric Acid.

Dr. Mallett concludes his report by an explanation of the modus operandi of the water upon the three varieties of Calculus material, Uric Acid, Phosphatic and Oxalic.

### EXPLANATION:

"It seems on the whole probable that the action of the water is PRIMARILY AND MAINLY exerted upon URIC ACID AND THE URATES, but that when these constitute a large percentage of the calculus, and are cemented together with, and as cementing matter to Phosphatic and Oxalic materials, the latter may be so detached and broken down as to disintegrate the Calculus as a whole. THESE CASES ALSO, THUS ADMITTING OF A COMPLETE DISCHARGE."

The celebrated DR. ALEXANDER HAIG, of London, in his work, "Uric Acid as a Factor in the Causation of Disease," gives "Excess of Uric Acid in the blood" as the cause of the following morbid conditions: Gout, Rheumatism, Calculi of the Kidney and Bladder, Albuminuria and Bright's Disease, Heart Affections, Heart Failure, Epilepsy, Convulsions, Anemia, Hysteria, Nervous Headache, Mental Depression, Mental Paralysis, Insomnia, Suicide, Asthma, Bronchitis, some forms of Indigestion, Eczema, and other skin diseases.

BUFFALO LITHIA WATER is for sale by Grocers and Druggists generally. Testimonials which defy all imputation or questions sent to any address.

PROPRIETOR, BUFFALO LITHIA SPRINGS, VIRGINIA.

Springs open for guests from June 15th to October 1st.

PURCELL, LADD AND CO., AGENTS, RICHMOND, VA.

## IS A STATE OFFICER.

SUPERINTENDENT OF SCHOOLS MAY BE COMMONWEALTH'S ATTORNEY.

A PORTRAIT OF GOV. JOHN M. PATTON

Presented to the State Library by His Son—Information on State Legislation Wanted by Austro-Hungary—Capital Notes.

Attorney-General Montague has decided that a man can hold the office of Superintendent of Schools, and at the same time an office to which he was elected by the people.

This question arose in the case of Mr. Robert T. Armistead, of Williamsburg, who was appointed Superintendent of Schools of that town last year, and was a few days ago elected Commonwealth's Attorney of the town and James City county. Mr. Montague was asked by the State Board of Education to decide whether Mr. Armistead could hold the two offices.

Mr. Montague decides that Mr. Armistead is a State officer, and that therefore the amendment to the Code by the Legislature of 1889-90, which amendment provided that no man can fill two county and district offices at the same time, does not apply.

Several newspapers have recently stated that Hon. T. T. Powell, member of the House of Delegates from Newport News, was entitled to his seat, he being Superintendent of Schools of his town. The Attorney-General's opinion would seem to make it clear that Mr. Powell can hold both positions. Though both are State officers, only one is elective.

PORTRAIT OF GOVERNOR PATTON. Colonel John M. Patton, of "The Meadows," Louisa county, has presented to the State Library a fine oil portrait of his father, Governor John M. Patton.

Governor Patton, a senior member of the Governor's Council, became Governor upon the resignation of Governor Gilmer, March 18, 1861, and remained in office a short time. Governor Patton was one of the accomplished lawyers of Virginia in his day, and was one of the revisers of the Code of 1860. He was born August 10, 1797, and died October 28, 1858. He is buried in Shoccoke-Hill Cemetery, a handsome, fluted column marking his grave.

AT THE GOVERNOR'S OFFICE. There were a number of visitors at the Governor's office yesterday. In the absence of his Excellency, they were received by Mr. Hal. Tyler, who is at the office while his father and Secretary Owen are at Wachapreague. Among those who called were Messrs. S. S. Wilkins, Superintendent of Schools of Mathews county; W. U. Kennon, of Powhatan, and J. S. Ware, of Clarke.

A letter was received at the Governor's office from Austro-Hungarian Consul in New York, asking for information regarding legislation regulating hours of labor, providing for the insurance of seamen against accidents, and regulating the procurement of dead bodies.

Mr. W. S. Beach, Clerk of the Hustings Court, is at the Governor's office.

sum Bible-Study Club will meet, in charge of Mr. J. M. Graham. The Boys' Glee Club will meet at 8 o'clock in the parlor. Mr. J. J. Hurt, of Richmond College, who is very much interested in boys' work, will address the meeting at 8 o'clock. The men's meeting will be held in the Association Music-room, and Rev. H. A. Hagby, pastor of the Calvary Baptist Church, will address this meeting. The Bible Training Class will meet at 8:15 in the Blue-Room, with Mr. W. S. Beach, in charge. Strange in the city are always welcome to attend any of these services.

## RICHMOND BOY A PRISONER.

Mr. Charles Blanford, Jr., Captured by the Filipinos.

The telegraphic advice received here from Manila to the effect that Mr. Charles Blanford, Jr., first assistant engineer of the hospital ship Relief, had been taken prisoner by the Filipinos has created much interest in this city, and Blanford is well known here, and for a number of years resided in Richmond.

He is a native of Petersburg, but when in his teens moved here with his father and accepted a position in the tobacco factory of R. H. Boykin & Co. Subsequently he was employed by the service of the Richmond Locomotive and Machine Works, but being of a naturally daring disposition, he was attracted to the Klondike, and upon the first expedition made to the gold-fields. He encountered many adventures on the trip, but returned home safe, and shortly thereafter took service in the navy.

It appears, from the dispatches from Manila, that Mr. Blanford, with a companion, was cruising near the coast in a small boat, which became becalmed, and while the young Americans were in that position they were attacked by two boatsload of natives, who took them prisoner. Mr. Blanford, and his companion, Mr. Charles Blanford, Sr., resided in Richmond up to about two years ago, when he removed to Newport News, where he is now engaged in the shipyard. News from the young engineer will be awaited for anxiously by his many friends here.

## TO DIVIDE THE THIRD MARKET.

Half of It to Be Cut Off and Converted Into an Auditorium.

The Committee on Light met in the City Hall last evening at 6:30 o'clock, in pursuance of adjournment from the day before. There were present Messrs. Wallerstein (chairman), Miner, Garber, Fetter, and Hardwick. The pay-roll of the department was approved and sundry bills were ordered to be paid, and a few matters of business of a routine nature disposed of.

A sub-committee of the Committee on Third Market met at the market yesterday afternoon at 2:30 o'clock, and inspected the premises, with the end in view of recommending certain changes, which it is hoped will be adopted by the market. The committee unanimously agreed to recommend that the market be divided by a partition, and to devote the eastern half to the sale of produce. The western half will be arranged so as to be used as a public hall or auditorium, with a seating capacity of over 3,000. Estimates of the cost of these improvements will now be secured, and the matter presented to the Council for its action.

## SHERIFF HUGHES IS WILLING.

Says He Had Never Been Asked to Give up the Key to the Bookcase.

Sheriff John T. Hughes was seen by a representative of the Dispatch yesterday evening and asked about the report that he had declined to turn over to the City Engineer a key to a press or case which had been removed from his office to the office of the Clerk of the Committee on Light. Mr. Hughes stated that he had not received a request for the key, either from Judge Weir or from the City Engineer's staff. If he had he would have turned it over, but he had never been asked to do so.

Mr. Hughes stated that he had not received a request for the key, either from Judge Weir or from the City Engineer's staff. If he had he would have turned it over, but he had never been asked to do so.

Mr. Hughes stated that he had not received a request for the key, either from Judge Weir or from the City Engineer's staff. If he had he would have turned it over, but he had never been asked to do so.

## Hard facts

for women who wash. No work you do is so unhealthful as your work over a washtub. This hard, perspiring work in the midst of soiled clothes and tainted steam will make trouble for you. The less of it you do, the better. Wash with Pearline, and there's little or none of it. Nothing but rinsing the clothes, after soaking and boiling them. Consider your health.
